

Product Information Sheet

ScentGel BDLC-401

Product description

ScentGel BDLC-401 is an environmentally friendly odor neutralizer for eliminating smells like urine, sweat and body odour, based on dry diffusion. The bio-degradable ScentGel is developed and patented by EOStream France.

Application

Neutralizing everyday smells like urine, sweat, and body odour. Can also be used to combat nasty smell of pets. Leaves no fresh fragrance behind.

Technical specifications

Physical state:	Fixed, bio-degradable substance
Colour:	Milky
Density:	0.99 – 1.03 gr/cm ³
Shelf life:	4 – 6 months
Life span:	4 – 5 weeks

Instructions for use

For the best results ScentGel should be used in combination with a fan dispenser that distributes the evaporated product in space. One dispenser is generally sufficient for an area of 50m². Depending on the level of stench and the size of the room, you'll need one or more dispensers.

Important

Keep out of reach of children. Avoid contact with skin and eyes.
Do not eat, drink or smoke during use. If swallowed, seek medical advice immediately and show the MSDS (Material Safety Data Sheet).

Packaging

Comes in bio-degradable container, made of rice husks.
