

Product Information Sheet

ScentGel BDLC-501

Product description

ScentGel BDLC-501 is an environmentally friendly odor neutralizer for eliminating organic smells, based on dry diffusion. The bio-degradable ScentGel is developed and patented by EOStream France.

Application

Neutralizing organic smells from sewers, wound odour and corpse odour. Also applicable in abattoirs, fish processing and composting plants. Leaves no fresh fragrance behind.

Technical specifications

Physical state:	Fixed, bio-degradable substance
Colour:	Milky
Density:	0.99 – 1.03 gr/cm ³
Shelf life:	4 – 6 months
Life span:	4 – 5 weeks

Instructions for use

For the best results ScentGel should be used in combination with a fan dispenser that distributes the evaporated product in space. One dispenser is generally sufficient for an area of 50m². Depending on the level of stench and the size of the room, you'll need one or more dispensers.

Important

Keep out of reach of children. Avoid contact with skin and eyes.
Do not eat, drink or smoke during use. If swallowed, seek medical advice immediately and show the MSDS (Material Safety Data Sheet).

Packaging

Comes in bio-degradable container, made of rice husks.
